Casambi in brief

Casambi is changing the way people light their surroundings. The company's innovative wireless technology uses Bluetooth Low Energy to place an entire lighting ecosystem in the user's hands. This uniquely dynamic and reliable modular solution is already enjoyed in thousands of buildings worldwide via hundreds of major ecosystem partners.

Headquartered in Finland, Casambi has built a significant sales and support network across Europe, North America and Asia which continues to grow as businesses worldwide discover the benefits of wireless lighting control.
