

Casambi is looking for talented and enthusiastic people to join our team. As a fast rising company in Bluetooth wireless lighting controls, Casambi was named by Deloitte as one of their Technology Fast 50 companies and was recognized at the 2019 Professional Lighting Design awards as a “Best Partner in Industry”. This is a rare opportunity to play a role in building a world-class brand, powered by a unique and exciting product, with potential for career growth opportunities.

We are looking for an energetic, customer friendly, and project oriented **Technical Specialist** to join our team as we prepare to enter our next growth phase. Customers are number one for us and you will have a key role in supporting them and our sales team throughout North America.

### **Role & Responsibilities**

- Project takeoff and design support
- Remote commissioning and programming support for installers and end users.
- On site system programming and commissioning.
- Conducting training courses for both internal and 3rd party technical support personnel
- Phone and field based technical support
- Working closely with Sales Managers to support presales technical activities

### **Requirements**

Successful track record of supporting lighting controls systems, sales support and customer support. Advanced technical aptitude is required and a desire to be a road warrior with the expectation of weekly travel throughout North America. There will be some international travel opportunities in support of trade shows and corporate meetings. Spanish language skill is a plus.

### **What does Casambi offer**

Casambi offers competitive salaries and benefits in a fast paced and growing segment of the lighting / IoT industry.

**For more information**, please contact Peter Augusta at [info.us@casambi.com](mailto:info.us@casambi.com)

**Please send** resume with a cover letter and note that we are eager to get started, so interviews will begin immediately.

### **About Casambi:**

Casambi's innovative wireless technology uses Bluetooth Low Energy to place an entire lighting ecosystem in the user's hands. This uniquely dynamic and reliable modular solution is already enjoyed in thousands of buildings worldwide via hundreds of major ecosystem partners.

Headquartered in Finland, Casambi has built a significant sales and support network across Europe, North America and Asia which continues to expand as businesses worldwide discover the benefits of wireless lighting control. Read more about Casambi: [www.casambi.com](http://www.casambi.com)
