

Highlights

In recent years, people have been spending more time in their homes, especially those who have hybrid, flexible or fulltime work-from-home contracts. This situation has led to a notable trend toward home designs that make better use of space. Distinct zones are created using semi-permanent partitions that can be moved around to offer more flexibility.

Open and multifunctional spaces require versatile and well-planned lighting to integrate and zone successfully. The lighting solution should offer the opportunity to easily jump between different lighting scenarios according to activity and mood – ie. From work mode to chillax time.

Decorative and technical luminaires in association with a lighting control system can be used to ensure that illuminance levels, brightness and color temperature are always adjusted to suit the current tasks, needs and mood.

Casambi's wireless lighting control technology is contributing significantly to a modern-day revolution in how people are taking advantage of lighting, not only to illuminate a space but also to enjoy different experiences, increase a home's security levels and even aid with lowering the energy bill.

Casambi's Bluetooth Low Energy based technology provides lighting designers and manufacturers with the ability to wirelessly link devices together enabling the creation of personalized smart lighting networks that are easily configured and controlled using the Casambi App.

Owner

- Reduced total cost of ownership
- Energy efficient & cost effective
- Simple reconfiguration without disruption
- Building accreditations
- Quick and easy device replacement - no reprogramming
- Remote access
- Efficient operations through iBeacons and data services

Installer & Commissioner

- Quick & easy to install
- No control cables needed
- Commission via the free app
- Ease of troubleshooting

Consultant & Lighting Designer

- Freedom in product choice & design flexibility
- Versatility and flexibility for all applications
- No complex wiring diagrams

Building Occupants

- Unparalleled user and visitor experience
- Visual comfort & wellbeing
- Task tuning and personalization
- Human centric lighting & customizable circadian profiles

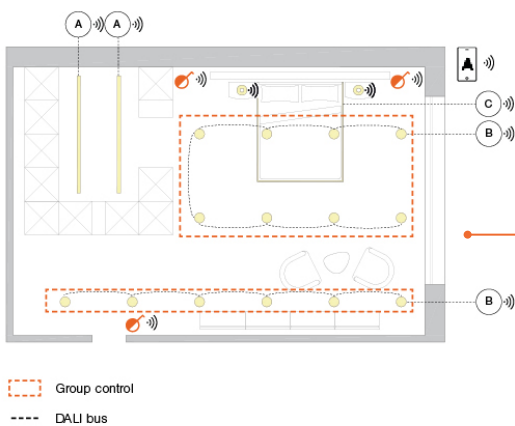

How to read this guide?

Room Type

Solution Type

2. Bedroom

Group Control

- Casambi Ready luminaire
- Tunable White LED luminaire
- Standard luminaire DALI
- Linear LED with power supply
- Casambi Ready wireless switch
- Casambi Ready driver
- Casambi wireless controller DALI
- Casambi wireless 4-Channel PWM dimmer

Benefits

Casambi Application: You can create separate control groups or create new control groups anytime via the Casambi App.

Using Casambi Ready products would be the easiest and most economic option.

Devices

LUMINAIRE	Casambi Ready luminaire	2	
	Tunable White LED luminaire	+ 2	
	Standard luminaire DALI	+ 2	
	Linear LED with power supply	+ 1	
SWITCH	Casambi Ready wireless switch	1	
APPLICATION	Casambi App on a smart mobile device <i>*Not mandatory for daily use.</i>		

Functionality

- Casambi App on a Smart Mobile Device
- Calendar and Timer
- Human Centric Lighting

Learn what strategies can be implemented in the space

1. Living and Dining Area

Individual Control

- Casambi Ready luminaire
- Standard luminaire DALI
- Standard luminaire with dimmable LED lamp
- Linear LED with power supply
- Standard track luminaire
- Casambi Ready switch
- Casambi wireless Xpress switch
- Casambi Ready blind controller
- Casambi wireless controller DALI
- Casambi wireless phasecut dimmer
- Casambi wireless 4-Channel PWM dimmer
- Casambi Ready In-Track driver

Devices

LUMINAIRE	Casambi Ready luminaire
	Standard luminaire DALI
	Standard luminaire with dimmable LED lamp
	Linear LED with power supply
	Standard track luminaire
OTHER	Casambi Ready blind controller
SWITCH	Casambi Ready switch
	Casambi wireless Xpress switch
APPLICATION	Casambi App on a smart mobile device <i>*Not mandatory for daily use.</i>

Functionality

Casambi App on a Smart Mobile Device

Human Centric Lighting

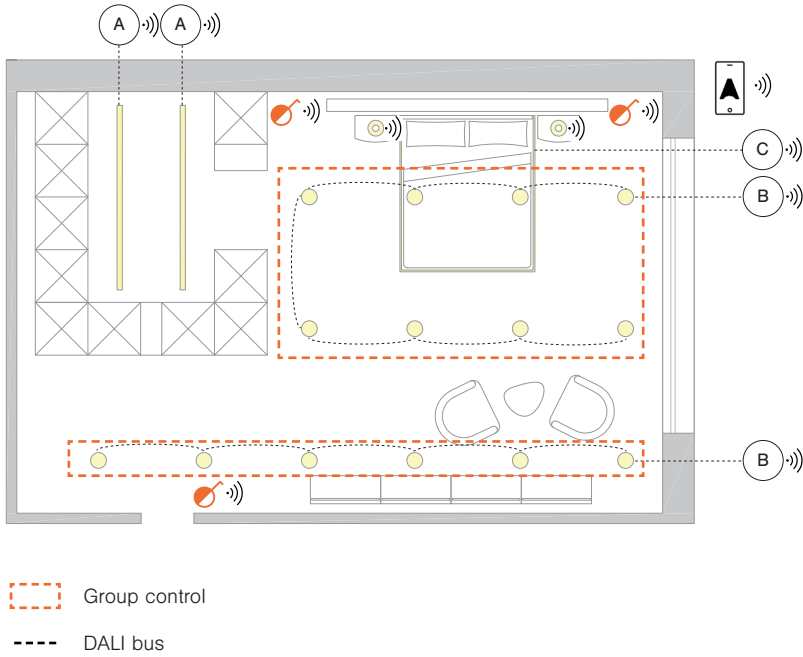

Calendar and Timer

Benefits

Predesigned scenes and luminaire groupings provide various lighting scenarios for different functions – circadian lighting for working areas, reduced level of illuminance for relaxing spaces, daylight harvesting systems next to windows. Your bespoke needs can be easily programmed in the Casambi App.

-  Casambi Ready luminaire
-  Tunable White LED luminaire
-  Standard luminaire DALI
-  Linear LED with power supply
-  Casambi Ready wireless switch
-  Casambi Ready driver
-  Casambi wireless controller DALI
-  Casambi wireless 4-Channel PWM dimmer

Benefits

Casambi Application: You can create separate control groups or create new control groups anytime via the Casambi App.

Using Casambi Ready products would be the easiest and most economic option.

Devices

LUMINAIRE	Casambi Ready luminaire
