

Buoyed by the success of integrating Casambi into their showroom, Solais has big plans for the future. They aim to incorporate Casambi offerings into all their downlights and are poised to launch a track light with Casambi integration. This strategic move aligns with their vision to offer intelligent and attractive lighting solutions to their national customer base.

The collaboration between Solais and Casambi exemplifies the transformative power of innovative lighting controls. By embracing Casambi's features, they not only revolutionized their showroom experience but also paved the way for future expansion and product innovation.
